The diagrams show a forklift operator performing three tasks:

- Diagram 1 (Left):** The forklift is positioned in front of a rack. The operator is lifting a load from the front of the rack. The caption indicates that goods should be pushed into the rack from the front.
- Diagram 2 (Middle):** The forklift is positioned in front of a rack. The operator is lifting a load from the front of the rack. The caption indicates that goods should be pushed forward from the front of the rack.
- Diagram 3 (Right):** The forklift is positioned in front of a rack. The operator is lifting a load from the front of the rack. The caption indicates that goods should be pushed forward from the front of the rack.
